"Actuality is to potentiality as someone waking is to someone sleeping, as someone seeing is to a sighted person with his eyes closed, as that which has been shaped out of some matter is to the matter from which it has been shaped"

"If the world has begun with a single quantum, the notions of space and time would altogether fail to have any meaning at the beginning; they would only begin to have a sensible meaning when the original quantum had been divided into a sufficient number of quanta. If this suggestion is correct, the beginning of the world happened a little before the beginning of space and time".

"This, the sceptics claim, is not merely impossible but clearly insane, which is why the advertising executives of the star system of Bastablon came up with this slogan: "If you've done six impossible things this morning, why not round it off with breakfast at Milliways, the Restaurant at the End of the Universe?"

"Big Bang is coming. The universe is blowing up into thousands of pieces. Or is it reassembling into the original quantum? It's a matter of time and it's a matter of space."

"Don't be sceptic! Play Battiato forward and backwards. Then again forward, and again backwards."

"Build up the structure, then fill it, then clean it out. Hop on the train, and miss it."

"Now, give us your personal Big Bang. Just before the beginning. Just after the end."

Adams Aristotele Lemaître Onde.Line

All the contributions need to fit within 1 or 2 squares 210x210 mm 300 dpi. Fill them as you wish: text, images, drawings, collages, comics ...

Send the material to the address use@ondeline.com before the 31/12/2018.
